4. The small bridge, 20" in length, on the canal connecting the bund side of Ganguli to the Bazaar has been declared weak for plying of lorries. But no steps seem to have been taken to reconstruct the same, so that lorries cannot go beyond this bridge to the business locality. It is our earnest desire that this bridge be immediately ordered to be repaired as trade will otherwise suffer and may even be stifled and the revenues of the Government will considerably be affected.
